MISSION:

The mission of Dillon High School is to prepare all students to achieve excellence by creating an environment conducive to learning where students, staff, and families work together to promote the skills needed in a continuously changing world.

VISION:

We at Dillon High School believe all individuals have certain basic rights, are worthy of respect, and are important to society. We believe all individuals can learn. We further believe learning is a lifelong process influenced by experience and environment. The development of positive relationships is essential to the productive social, emotional, physical, and cognitive development of every individual. This development of the whole individual requires that education be a responsibility shared by the home, school, and community. As the foundation of these beliefs, we at Dillon High School believe that society, as a whole, will benefit from a unified effort to educate all individuals and from a common desire for the community to succeed.
