ANNUAL ACT 135 SUMMARY REPORT

Dear Parents,

Our School Improvement Council has prepared this Annual Summary Report for you and the community members interested in our school. This report reviews improvements and accomplishments made last year, displays student achievement, and describes activities planned for this school year. It also displays test scores and school report card ratings applicable to our school.

Act 135 mandates that schools develop comprehensive five-year plans to improve the academic performance of students and educational services for students. A new five-year School Renewal Plan with accountability elements was submitted to the South Carolina Department of Education (SCDE) in 2017. The school is completing year one goals and an annual update will be submitted in April. The five year plan covers goals for 2017-2022.

If you have any questions or concerns about the information summarized here, please call Shannon Berry, Principal at 843-774-1222.

FEDERAL ACCOUNTABILITY RATING SYSTEM

The South Carolina Department of Education (SCDE) released school report cards, which reflect data elements and student performance data from the 2016-2017 school year. This year's release is the third annual release where schools and districts did not receive ratings although student performance data was reported.

The "hiatus" on ratings, which occurred as a result of legislation passed by the SC General Assembly in 2014, is designed to allow teachers and schools time to adjust to new standards and assessments before a system is developed that merges the federal and state systems.

STATE ACCOMPLISHMENTS IN REGARDS TO CERTIFICATION AND COMPLIANCE

- Remained in compliance with all applicable standards in accordance with South Carolina Statutes, Regulations, and Program Guidelines.
- Received and "All Clear" rating from the South Carolina Department of Education as reflected on the Annual Accreditation Report.
