## Review of 2011 - 2012 School

### Renewal

#### Goals Accomplished:

##### Curriculum

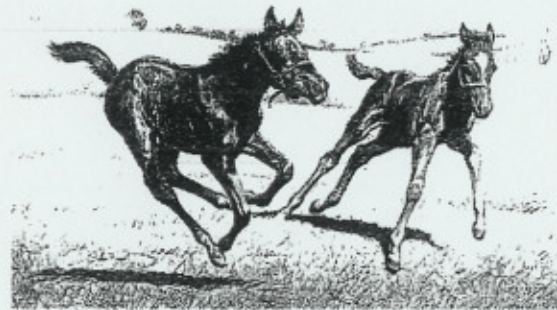

- Map data was used to analyze students' needs and plan instruction.
- Individualized instruction was implemented through the reading initiative and MAP score analysis.
- Software was purchased to provide additional instructional support.
- An after school program for at risk students was established to provide additional academic support.
- One reading intervention teacher was funded by district funding.
- One Science Lab teacher was funded by Title I funds.
- Fifteen SRNS grants were received and used to enhance Science and Math instruction.
- Teachers participated in staff development on early release days and various times throughout the year.
- Provided teachers with relevant professional staff development and professional reading opportunities.
- Dominic testing data was used to guide reading instruction.

##### School Environment

- Surveys were used to determine staff development needs.
- Staff development was planned and conducted throughout the year.

##### Home-School Connection

- A successful Career Day was planned and implemented.
- A family enrichment night was planned and implemented.
- Positive communication was sent home via: positive office referrals, positive notes home, and a clip chart discipline method.
- The Student Council planned a community learning project and successfully implemented it throughout the year.

##### Mission

The mission of Millbrook Elementary is to develop successful, responsible students of character by providing a challenging curriculum within a safe, nurturing environment.

## School Renewal Plan Goals 2012 - 2013

### Curriculum

- Implement the use of Common Core Standards.
- Purchase Compass Learning computer program to assist teachers with implementing common core standards.

### Teacher Quality

- Provide extensive professional development on the implementation and use of common core standards based on district and state guidelines.
- Provide professional development on the use of a new computer program as a basis for planning differentiated instruction.
- Provide relevant staff development focusing on Math and Science.

### School Climate

- Plan opportunities to inform and educate parents on the purpose and planned implementation of Common Core Standards on an as needed basis.
