### What is a School Improvement Council?

The School Improvement Council (SIC) serves as an advisory committee to the school's principal and faculty. The council plays a key role in the education of our state's children, bringing together parents, educators, and community stakeholders to work collectively to improve student achievement.

The Report to Parents and Community reviews the progress made towards increasing student growth and other milestones made during the school year. The School Improvement Council of Beech Hill Elementary is delighted to share these findings with our learning community and valued stakeholders.

This information is issued by the **Beech Hill Elementary School Improvement Council** in accordance with South Carolina law, which mandates annual reporting of the school's process and progress in generating and meeting targeted goals and objectives.
