About SGMS

St. George Middle School is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate. Ensuring that quality instruction improves student learning continues to be the focus of SGMS. We are working for increased achievement through various instructional methods. Teachers and administrators have analyzed data to identify specific areas of instructional needs.

SGMS is proudly providing our students with the opportunity to enroll in Design/Modeling and Green Architecture as part of the Gateway To Technology (GTT) initiative. In addition, SGMS now includes Agriculture Education. Agriculture provides students with the opportunity to learn about agriculture, food and natural resources. Through this class our students can become members of FFA (Future Farmers of America) which prepares its members for leadership and careers in the science, business and technology of agriculture.

Providing quality after-school activities is also a key to improving academics and student achievement. The main goal of the program is to provide a safe, nurturing environment for our students outside of traditional school hours.

Benjy Kennedy, Principal

W. Riley, SIC Chairperson

Student Achievement

2024 Spring iReady Testing Scores

iReady Grade Level Assessment
(Summative)
