In quiring Minds = Learning Minds!

Greenwood Elementary has a rich history of providing a safe and trusting environment for students to learn and grow. The 2016-17 school year saw our teachers, students, and parents continue to engage in “STEM-ulating” learning experiences as part of the Project Lead the Way: Launch curriculum in which each grade level integrated two units of study that provided hands-on, minds-on Science, Technology, Engineering and Mathematics lessons in which students apply critical thinking and problem-solving skills as they deepened their understanding of the

various topics of study. GES provided programs such as Reading Recovery, LightSail, Leveled Literacy Intervention (LLI), Read across America Activities, In-

centives, Book Fairs, Family Literacy Night at the Museum, and Media Center times to create and foster students’ love of reading. Schoolwide we are committed to reading and continue to use \$10K+ Title 1 funds to purchase books for classroom libraries. GES has two full-time computer labs, two laptop carts, SC-ETV Video Streaming programming, iPads, iPad-minis and Chrome-books for 1:2 Device:-to-Student ratio. A long tradition of putting children first and a mission of *making today a better tomorrow* continues to be the driving force as we strive to meet our students’ needs.

A Message from the GES School Improvement Council

The SIC (School Improvement Council) serves as an advisory committee to the school. The SIC meets monthly and works collectively with the parents, educators, and community stakeholders to improve student achievement. The SIC publishes an Annual Report to Parents each spring to inform our stakeholders of the progress being made in achieving our school improvement goals. The Annual Report to Parents includes achievement information as well as the school's plans for continued improvement.
