

At Dewey Carter Elementary . . .

Dewey Carter Elementary has many outstanding features that make it a special place. One of our main priorities is ensuring our students have skills and a love for reading. We have four additional reading support instructors to help make this a

reality for our students. We also have a certified Math Coach whose zeal and knowledge of math strategies is spread to students and staff members throughout our school. Quality reading, writing, and math are foundational skills we want to ensure all Dewey Carter students have each day.

we desire and guide our students to:

excel in academics,  
develop a love for learning  
through experiences,

Another focus continues to be our STEM lab. Our certified STEM teacher continues to provide engaging science and engineering opportunities as a related arts period for our students. Also, every teacher is equipped with Streaming programming, Smart Boards, LCD projectors & document cameras for student exposure to current technologies in education.

At Dewey L. Carter, our students and staff are truly a family and we support one another each day. We believe our students deserve the best education possible and we will do whatever is necessary to ensure ALL of our students succeed.

Through our many curricular areas and a warm, caring school climate, students are given many opportunities for success. Some activities and incentives offered include:

- ✓ Good News Club

# DEWEY CARTER ELEMENTARY

The School Improvement Council provides an annual report to stakeholders regarding progress being made in achieving school improvements. This report includes achievements and plans for improvement.

Beginning with the 2018-2019 school year, every student in grades 2-6 has their own Chromebook to use in the classrooms and at home, if given permission by parents. Our younger students also have access to a device in the classroom. Students use these devices to work on individualized lessons in math and reading assigned as enrichment by teachers. Students may also work on projects and do homework assignments as well. It has been an exciting transition for us all!

## Strategies for Improving Instruction

- Weekly staff development to help ensure best practices in the classroom
