Goals of REMJHS SIC

Parenting

To promote and support parenting skills.

Communications

To improve consistent, meaningful, two-way communication between the home and school.

Volunteering

To increase volunteer support and assistance.

Student Learning

To increase parent involvement with their children's learning at home.

Decision Making

To make parents full partners in the decisions that effect children and families.

Collaborating

To identify and increase community resources.

*Join SIC! We are always looking for new members to join our team to determine ways to improve our school.
If interested, contact us!*

be successful by preparing them to be
100% College and Career Ready!*

Report to the Parents

Ronald E. McNair Junior High School

Ronald E. McNair Junior High School has undertaken some exciting changes during the past school year. We have successfully combined two middle schools and created an outstanding junior high school with a state of the art wing housing our eighth graders who are engulfed in learning through technology with the NewTech Network design. Even though change is absolutely necessary in our evolving society, at Ronald E. McNair Junior High School, we still value the home-school partnership as a very important element in the education of our children. We understand that all aspects of a child's education centers around the family and community. Research shows that there is a direct relationship between parent involvement and student achievement. Meeting the needs of all of our students, their families, and our community is vital to the quality of education in our school and the academic success of each student. We encourage your support and participation in our school activities throughout the year. By forming a strong partnership, we can all work together to educate and inspire all of our students to succeed. Please make every effort to get involved today.
