Principal's Message

At Scranton Elementary STEAM Academy our mission is to be Full STEAM Ahead. We do believe, with your input and support, we can all achieve great things. Research tells us, the more parents and guardians are involved in their child's education, the better the child performs in school. Once family and community members are seen as learning partners, students will be better equipped to reach their academic, social, and emotional growth potential.

Our main focus continues to be striving for academic excellence for all students, improving home/school relations, strengthening our volunteer program, and maintaining a safe, positive learning environment for all. Please visit our school so that we can work together to ensure each student reaches his or her individual potential. We are here to make a difference each and every day!

Parent Involvement Goals

- Provide information and ideas to families about how to help students at home with their academics.
- Design more effective communication systems for home-to-school and school-to-home communication.
- Recruit and organize parent help and support.
- Involve parents in the planning, review, and improvement of programs through SIC meetings, surveys, and parent suggestions.
- Identify and integrate resources from the community to strengthen the school programs, family practices, and student learning and development.
- Provide a Parent Center, open during school hours, with resources to help with academic and social development.
