Excellent Report Card Rating 2011-2012  
 Excellent Report Card Rating 2010-2011  
 Excellent Report Card Rating 2009-2010

Palmetto Gold Award Winner

2002, 2003, 2004, 2010, 2011, 2012

Palmetto Silver Award 2006

2008 Safe Route to School Grant Recipient  
 Character Education Honorable Mention

Principal: Vervatine A. Reid

Assistant Principal: Roland Hewes

PTA President: Brandy Streett

SIC Chairperson: Susan Nevitt

## Faculty and Staff

Waccamaw Elementary School has a staff of 51 professionals, 2 administrators, 1 part-time Learning Specialist, 1 part-time Curriculum Coach and 27 support personnel plus various itinerant persons dedicated to providing the best educational program possible for each student. Medical services including health screening are provided by an onsite R. N. and speech therapists. Guidance services are provided by two counselors and a school psychologist. Bachelor degrees are held by 100% of the faculty. Of this group, 71% hold advanced degrees. Six of our teachers have National Board Certification. Our teachers have an average of 18 years experience.

## Student/Teacher Ratio

Pre-K	20/1
K	24/1
1st	18/1
2nd	17/1
3rd	20/1

## Programs / Activities

Academic Fair Team  
 Accelerated Reader  
 Academic Fair  
 Book Buddies  
 Book-it  
 Dolphin Derby Reading Day  
 Fall, Christmas and Spring Music/Drama Production  
 Fall Art Fundraiser  
 Family Reading Day  
 RtI Grades K-3

 Spring Art Show  
 Literacy Day  
 Terrific Kids  
 Volunteer Program  
 Walk To School Day

## School/Community Projects

Relay For Life  
 United Way  
 American Heart Association  
 Toys For Tots  
 Pot of Gold Raffle  
 Pennies For Patients

**Curriculum** The school encourages students to have a zeal to be inquiring, knowledgeable, caring, and active lifelong learners.

The school offers a comprehensive educational program with courses in the common core state curriculum areas including language arts, math, science, social studies, and special education. Classes in art, music, physical education, technology, media, and gifted and talented are also provided.

## MAP (Measures of Academic Progress)

MAP provides teachers, students, and parents with an accurate assessment of student progress in mastering the basic skills. This assessment is given at least two times during the school year. Teachers can use this assessment information for instructional planning for individual students or an entire class. Intervention groups are developed to provide academic assistance.

**PASS** Palmetto Assessment of State Standards is a statewide test administered to all public school students in grades 3-8. The goal is for all students to score proficient or advanced in the four core subjects (math, language arts, social studies, science).

**RtI (Response to Intervention/Enrichment)** is a process used throughout the school year with grades K-3 to address early literacy with diverse learners and advanced readers. Diagnostic, progress monitoring, interventions, and assessments are exercised consistently (such as Istation, MAP, Running Records, teacher input, etc.).

## Benchmark (District test)

Student in grades 2 and 3 are administered a test in the areas of math and language arts standards at least two times per year.

## Waccamaw Elementary School Information

Waccamaw Elementary School was built in 1976 on 35.3 acres of wooded land in Pawleys Island, SC. Originally, the school housed grades K-8, but because of the population growth in the area, the school now serves Pre-K through 3rd grade. WES feeds into the Waccamaw Intermediate School.

A fine arts complex was built in 1984. This complex includes a music room, 2 art classrooms, a full size gymnasium and special service rooms for speech teachers and other itinerant teachers.

The attendance area for WES includes Murrells Inlet as the northern border and Hobcaw Barony as the southern boundary.

### Classrooms

Individual classrooms are equipped with at least three computers, a printer, a television, telephone, current maps, globes, and overhead projector, a listening station, headphones, and an abundance of books and teaching supplies. Twenty nine classrooms are equipped with Promethean Boards and 7 have interactive projectors. Pre-K-1 classrooms have bathrooms and sinks.

### Technology

All classrooms are connected to our LAN and WAN (computer networks) which enable all computers to have internet access and access to our school Sprint system. This state of the art system gives teachers the ability to schedule educational television programs from their classroom computers and to also receive voice mail. Teachers are also equipped with a laptop. WES has 2 computer labs. The CAI (Computer Assisted Instruction) Lab and IStation is used for reinforcement in language arts, math and MAP testing. The other lab is used for enrichment in social sciences and technology and is equipped with 26 computers. A portable mini-laptop lab is available for 3rd grade. The media center is equipped with scanners, digital cameras, a large screen display system and an abundance of educational software. Teachers are privileged to have the use of a fax machine, e-mail, telephone with voice mail, web page, and homework box to communicate with parents.

A surveillance system with 19 interior and exterior cameras are installed to insure a safe learning environment for everyone.

### Enrollment

Our current enrollment is 675 students. Of those, 74% are Caucasian, 22% African-American, 03% Hispanic, and 3% other.

### Special Area Classes

The fine arts, Spanish, resource, enrichment, science resource lab, guidance, and physical education departments are excellent. These programs not only compliment the curriculum, they enhance and complete the educational experience.

### Student Achievement

WES strives for and expects the best from all of our students academically and socially. Over the years we have excelled academically in performance both at the district and state on achievement tests. We attribute our success to the following:

- High expectations
- Committed and dedicated teachers
- Strong parental involvement
- Students entering school prepared to learn
- Support for teachers
- External resources and programs
- High student and teacher attendance
- School/Community relations

### Goals

To improve and enhance student learning and achievement.  
To enhance the effectiveness of parents as they support their children in learning activities.  
To maintain highly qualified teachers by providing on-going staff development opportunities.

### Mission Statement

The mission of Waccamaw Elementary School, an inquiry-based learning school, is to help children become knowledgeable and caring citizens through cultural understandings and respect by providing developmentally appropriate curriculum in a safe and supportive environment.

### School Motto

Achievement, Respect & Integrity  
Through Education

Dear Parents and Students of WES,

Welcome to the 2012-2013 school year at Waccamaw Elementary School of Inquiry-based learners, where we anticipate a window of opportunities for all students to be successful.

Our main thrust this upcoming year is to encourage students, teachers, parents, and the community to be involved in the learning process; and to make a collaborative effort to work together tirelessly and productively to ensure a safe, challenged and conducive learning environment for our boys and girls.

I encourage you to take the time to review the contents of the student handbook. It will be resourceful both to you and your child in being organized and up to date on school policies, procedures and activities during the school year. Being knowledgeable of school policies and expectations may prevent your child from encountering problems at school, and enable your child to confidently reach his/her maximum potential.

As instructional leaders and teachers, we will continue to focus on well-defined strategies as we infuse the South Carolina Standards through inquiry-based units instructionally. Diagnostic and achievement instruments will be administered by the teacher to students, such as MAP (Measuring Academic Progress), RtI (Response to Intervention) process, running records, common assessments, etc. to identify students' strengths and weaknesses in the areas of language arts and math.

As an inquiry-based learning school, we will continue to encourage our students in Pre-K through 3 to become inquired, active, and compassionate lifelong learners. We will continue to implement in our classrooms school-wide the following: Character Education, Balanced Literacy, quality math instruction, Technology usage, Science Kits, Response to Intervention process, and Go-Green Recycle Project.

As your principal, I welcome you to embrace the shared vision for the 2012-2013 school year at Waccamaw Elementary School.
