## On Track @ MHS

MHS OnTrack program is in its 3rd year addressing academic, attendance, and behavior concerns, meeting weekly to review students at risk. Even with the struggles of this COVID year successes were found by bringing 21 at-risk students back into the classroom, improving grades, and minimizing attendance issues. Students are matched with teacher mentors, mental health and social service resources, provided tutoring opportunities, as well as increased check-ins with their counselors, small groups, and home visits. Last year we had 5 students that wouldn't have graduated, receive their diploma on time due to On-track services and we expect to top this number for our 2021 graduation.

## School Profile

The South Carolina Department of Ed did not rate schools in 2020 due to the COVID-19 pandemic. MHS did earn an excellent rating on the 2019 SC School Report Card. Beyond this recognition, it is a place where teaching and learning are front in center in everything we do and where establishing positive relationships between all stakeholders marks the way. In addition to being a center for instruction, we also provide enrichment and support as we prepare college and career ready graduates.

Mauldin High school was first built in 1973 and renovated in 2002. Our campus is home to a wide variety of instructional, athletic, extracurricular, and lifelong learning programs. Despite the size of our student body, our school provides a welcoming and nurturing environment to all students.

At MHS, parental and community involvement are high priorities. The school has an active PTSA and school improvement council. We also benefit from creative partnerships with local businesses, corporations, and individuals who support many of our educational and extra curricular endeavors with funding and volunteers.

Mauldin High School is located in one of the fastest growing areas of the state. It is situated on the edge of a major research complex that brings high-tech jobs to the community. Our school is charged with providing students with the essential academic and social skills that will provide them a place in the global economy of the 21st century, consistent with the districts goals of producing college and career graduates.

Mauldin High School continues its commitment to motivating students, helping them achieve their goals, instilling positive values and finding success. #GoMAVS

## MISSION STATEMENT

The administration, faculty, and staff of Mauldin High School, in conjunction with the students, their families, community, shall provide every student the opportunity, challenge, and support to realize his or her educational potential and the ability to assume a productive role in a democratic society. In addition, Mauldin High School continues to develop and create college and career ready graduates by developing a comprehensive and thorough plan in line with Greenville County Schools' G+ initiative.

## Our Beliefs

- Students learn and demonstrate their knowledge and skills in different ways and should be provided with a variety of effective instructional approaches and assessments to support their learning.
- Students must be provided with a challenging and diverse curriculum
- Each student is a valued individual with unique physical, social, emotional, and intellectual needs.
- Exceptional students (e.g. special education, limited English proficiency, gifted and talented, etc.) require special services and resources.
- Students develop an appreciation of different people and cultures through an awareness and understanding of cultural diversity
- Students, teachers, administrators, parents, and the community share the responsibilities for advancing the school's missions.
- Schools and community commitment to continuous improvement enables students to become confident, self-directed, lifelong learners
