GRADUATION RATE Analysis:

Graduation rates reflect only students who obtained a diploma within four years after beginning ninth grade. Not included are students who began at RHS in grade 9 and later transferred to another high school to pursue a state diploma. These students are documented by a "request for records" from the next high school. Unfortunately, some students are included in the aggregate that are not served by Riverside and some who are not on a diploma track. Examples include students who cannot be tracked after leaving RHS (for example, students who transfer and their destination school does not request a transcript), students who pursue a GED, and special education students who receive an Occupational Diploma or a District Certificate. This second set of students remains in the Riverside composite and lowers our graduation rate even though they are not being served in a diploma track at Riverside.
