

Woodmont High School
School Improvement Council
2831 W. Georgia Road, Piedmont SC 29673
Annual Report to the Community 2017-18

As an International Baccalaureate World School, Woodmont High School enjoys a challenging and rigorous curriculum which serves to prepare its students to be college and career ready. To that end, students may elect from a wide array of offerings in Advanced Placement, Dual Credit and the International Baccalaureate Programme as well as offerings in Career and Technology Education. As a result of these programs, the students of Woodmont High have enjoyed great personal and collective successes and have graduated with a diploma plus credit toward college or a career certificate. These opportunities afford our students with an opportunity to be more competitive in the marketplace, particularly when competing for jobs or admission to the finest colleges and universities.

Woodmont has made significant progress in achieving the goals set forth in our Five-Year School Improvement Plan. Of most significance is the double digit increase in our four year graduation rate, which is just shy of the State average. Additionally, Woodmont students have outperformed their peers in ACT and Work keys assessments, achieving yet another goal in the School Improvement Plan. A variety of factors contribute to such success. Expanded opportunities for our students were achieved through the generous support of our primary business partner, Michelin Americas Research Center.

Our students have been recognized with many accolades and awards. In the area of fine arts, Woodmont High continues to excel and once again is State Champion of the South Carolina Theater Association and also celebrated when one of our students was named Miss South Carolina Teen and went on to compete in nationally.

The academic achievement realized could not have been possible were it not for the outstanding faculty and staff who serve the student of Woodmont High. Once again, Woodmont enjoyed a Greenville County Top Ten Teacher of the Year, The WYFF4 Golden Apple Teacher of the Year and its Athletic Director was awarded outstanding Athletic Director of the year for 5A region 1.

Finally, the success our school enjoys is the result of countless hours of volunteer service donated by parents and community members. Our PTSA has kept record of such time and is proud to report that more than 5,000 volunteer hours were recorded for the past school year.

Respectfully submitted,

Phillip Yates
