Bryson SC PASS: Science

Our Mission

The mission of Bryson Elementary School is to provide diverse educational experiences and skills that empower students to become productive and confident life-long learners in an ever-changing technological society.

Our Vision

Bryson Elementary School students will become interdependent, innovative, and successful citizens with bright futures, as they optimize their unique capabilities socially, academically, and responsibly.

Goals

Goal #1: Student Achievement

Raise the academic performance level of each student by providing quality instruction, in order to increase the percentage of third through fifth grade students who are meeting or exceeding expectations on SC Ready Mathematics and English Language Arts.

Goal #2: Teacher Quality

Ensure there is quality personnel in all positions, and provide training, support, and professional development to staff.

Goal #3: School Climate

Provide an engaging, challenging, and safe learning environment that equips students to grow socially and academically

- Donors Choose Grant Awards: 2015-2021
- Golden Standard for Cleaning Award: 2011-2012
- Energy Star Award: 2020-2021

Celebrating Student Success!

Academic Focus

We anticipate that our students will continue to make educational gains in student achievement. In order to achieve this goal, our school's academic focus can be seen below:

- All kindergarten through fifth grade classrooms are equipped with 1:1 devices. These Chromebooks enhanced educational experiences and student engagement.
- Common formative assessments were used to analyze benchmark data and make instructional decisions to meet the needs of all students.
- Our school targeted foundational reading skills by focusing on the Balanced Literacy Framework, specifically, guided reading and mini-lessons. School-wide quarterly writing days were integrated and student work was highlighted in our Hall of Fame!
- A small group guided math approach was integrated into instruction to improve student-centeredness and differentiation. A school-wide math fact fluency plan was created to increase stamina and achievement in math computation.

Community Connections

The Bryson Elementary School staff, PTA, School Improvement Council, parents, and community partners have contributed to our school's success. We have attained many goals and continue to expand programs for our students. Volunteers contribute their time in the classroom and at special events.

Our school will continue to identify each individual student's educational needs and work towards enhancing engaging educational opportunities. Through the dedication and high expectations of the administration, faculty, and families, the Bryson Elementary School community can continue to expect academic gains.

Our community members and families have an active role in our educational programs and success. Our school team is so grateful for their continuous support.

Andreya C. Boggs, Principal ~ Jeff Jennings, SIC Chair
Julie Eddy, PTA President
