## Additional Information

Berea Middle is a suburban middle school located in the northwest quadrant of Greenville County. Our middle school serves

students in grades six, seven and eight. During the 2020-2021 year, the school enrolled approximately 551 In-Person students and employed 80 staff members, including professional and para-professional staff. There were approximately 300 students enrolled in the Virtual school.

Significant challenges to Berea Middle School included

- ❖ A transient population, which results in students lacking content not taught before transferring, or repeating content that had already been taught; and
- ❖ Decreased Title I funding which resulted in fewer resources available for professional development and other activities.

**Berea Middle School is always looking for additional parental involvement in the school. Parents or any agency who would like additional information about ways in which they could become more involved in the school should contact the school at 864-355-1700.**
