

SIC Annual Report 2014

Our Mission Statement

Leaders shine all the time.

Sue Cleveland Elementary Report to the People

Sue Cleveland Elementary is striving to make progress. In math, the met and exemplary categories were at 71%. This was a decrease from 2013 at 76%. Next steps for math, are to prepare students for Math standards, continue to reduce class size, to continue Response to Intervention, and to continue providing an after school program for students in grades three- five. In ELA, the met and exemplary categories were at 72%. This was a decrease from 2013 at 83%. Next steps are to prepare students for ELA standards, continue to reduce class size, continue to implement reading literacy, and to continue Response to Intervention. Our decreases were due to a low performing group at third grade. We continue to make progress with them.
