SIC Report to the Community

Fountain Inn Elementary has established itself as a Professional Learning Community where teachers are committed to a collaborative process for teaching and planning. Students are empowered to succeed by receiving small group instruction daily based on their academic levels. During the 19-20 school year, our staff has been engaged in on-going staff development to increase the effectiveness in the area of Balanced Literacy. Monthly reviews of student data and test scores show our students performing above our expectation of at least 80% mastery in all areas. Data analysis assists our teachers in developing rigorous lessons that will support our high expectations for student growth. Opportunities such as the National Junior BETA Club and Student Council offer our students the ability to serve within and beyond the walls of our school. Our guidance department ensures we are building students of character with high academic standards. With a continued focus on strong collaborative planning and excellence within the classroom, teachers, students, and the community as a whole will continue to exceed our levels of expectation for excellence in the 21st century.
