2022-2023 SIC GOAL

The 2022-2023 goal of the School Improvement Committee is to expand career awareness for students toward the district's Graduation Plus (G+) initiative to create career and college ready students. Actions include promoting parents and community member involvement through the "Flat Panther" project highlighting careers. A "Flat Panther" was sent home with students to have family and friends take it to work, photograph, and send in a description about what they do. Pictures and descriptions were displayed for students around the school to provide opportunities for students to connect learning to future careers. SIC works with teachers, PTA, parents, and the community to create a plan of action.
