Summit Drive Elementary

A School of Leadership and
Entrepreneurial Design

424 Summit Drive
Greenville, SC 29609

Leadership

Every student at Summit Drive is a leader. Through identification of individual strengths, interests and aspirations, we are able to help our students build on the skills they need to be successful.

Students apply for leadership opportunities in the classroom and throughout the school.

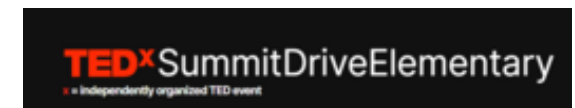

Design Thinking

Our student designers use a human centered approach to innovation called Design Thinking. Students work hard to discover problems and how they can change the world by solving them. By applying a Design Thinking Method to our curriculum standards, students gain a unique perspective into learning by empathizing with the end user.

We are leaders changing the world!

Our Partners

Unique Boutique

The Caring Closet is an SIC initiative focused on bringing in new clothing, hygiene products, and backpacks to make available for students who need these items. By stocking this Caring Closet with these items, the Summit Drive community is helping to ensure our students have everything they need to be ready to learn each day.
