

Summit Drive Elementary School

LEADERSHIP AND ENTREPRENEURIAL DESIGN

Mrs. Kelly Hellams, Principal
Doug Webb, SIC Chairperson

A Whole Child Approach to Learning

We use The Leader in Me to nurture and develop Leadership potential in all students. This model incorporates the 7 Habits of Highly Effective People, by Stephen Covey to enhance skills such as self-discipline, goal setting, teamwork, communication, initiative, and global awareness. These habits are taught independently and interdependently throughout the curriculum. The Leader in Me provides students with an opportunity to develop and track progress of goals, apply to become classroom and school leaders through various roles, and foster their unique abilities and talents.

Designers

Summit Drive Elementary students are designers! We use the Design Thinking model which uses a human-centered approach to innovation. This is the process we use to teach the state standards. Students work hard to understand what problems there are in the world and how they can make a change.

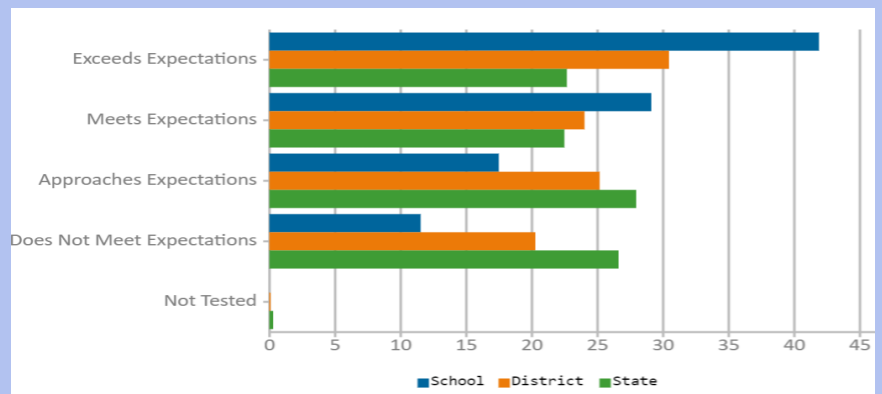

Entrepreneurial Mindset

Do we believe that our students will grow up to own their own business? Not necessarily. We know that life is challenging and constantly changing. Our students learn to accept responsibility, learn from their mistakes, and understand in the importance of failing forward.
