

LEADERSHIP

Every student at Summit Drive Elementary is a leader. Through identification of individual strengths, interests and aspirations, we are able to help our students build on the skills they need to be successful.

Students may apply for leadership opportunities throughout the school and classroom.

DESIGN THINKING

Summit Drive Elementary students are designers! We use the Design Thinking Model which uses a human-centered approach to innovation. This is the process we use to teach the state standards. Students work hard to understand what problems there are in the world and how they can make a positive impact on change.

ENTREPRENEURIAL MINDSETS

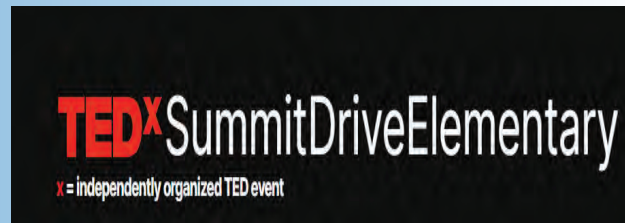

Do we believe that our students will all grow up to be business owners? No. We know that life is challenging and the future is always changing. We want our students to have empathy and listening skills, creative confidence, resilience, flexibility, and resourcefulness.

OUTSTANDING FEATURES

- Design Studio with instructor
- Makery for creating prototypes
- School leadership roles for students
