

## SIC Report to the Community

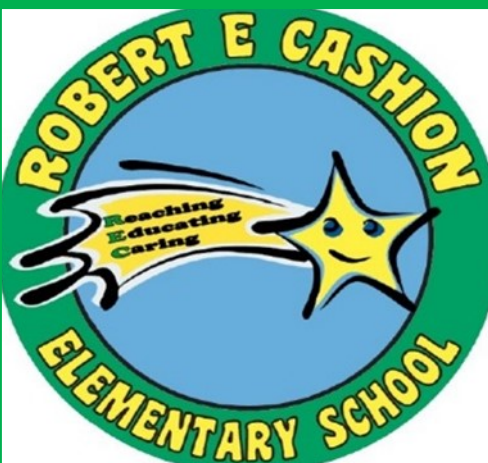

### Career and College Corner

In support of our district-wide Graduation Plus initiative to ensure all students are college and career ready, students are learning various careers and education requirements during school counseling lessons. We will also feature a special news segment on REC's news show that focuses on connecting school to work. Students are learning the importance of setting future goals and the different opportunities that are available to them.

Our motto is “Working Together is Success” and our School Improvement Council is an important piece to our success. In December, our SIC organized our 2nd Annual “Growing Our Future Day.” With the help of 12 volunteers from General Electric and our school community, we planted 25 trees around the school to beautify the school grounds. Our SIC organized a Clothes Closet. This closet is used when students are in need of emergency clothing and will be designed to keep our students in the classroom when replacement clothing is needed. Next year our SIC will team up with our PTA to find business partners for a new playground in the near the future. We are excited about the work of our SIC at Robert E. Cashion Elementary. We will continue to Create Something Wonderful at REC as we Pursue Excellence in 2018 - 2019 school year.
