

## School Achievements

- In 2014, 79.27% of tested students achieved at “Foundational” levels or above on the State Alternate Assessment. Additionally, 98.31% of students mastered 80% or more of their IEP goals.
- The Unique Curriculum is aligned with State standards and implemented school-wide, and the OnCourse System is in place for lesson planning.
- Washington Center has a fully functioning SIC and PTA, and this year the PTA has sponsored three parent training sessions including: “Family Night” when local service providers came to provide information; a session with a local attorney; and subsequently, one with Greenville Health System’s Supportive Care Team.

## Annual Goals

For 2015, Washington Center students will participate in the administration of a new Alternate Assessment. No baseline for that test has been established.

Ninety-five% of students will achieve mastery of 80% or more of individual goals.

Students will have a variety of community based trips and experiences, and staff will utilize virtual field trips as an option for allowing students to visit distant locations.

A school steering committee will continue to provide input into decisions related to school programs and activities.

## School Improvement Council Report to Parents 2014-2015

2 Betty Spencer Drive  
Greenville, SC  
29607

<http://www.greenville.k12.sc.us/washctr/>

The Mission of Washington Center is to provide instructional opportunities designed to encourage independent functioning, community involvement and academic skill development aligned with state academic standards.

## Vision

The vision for Washington Center is to collaborate with families, district staff, and community members to provide both functional and academic educational experiences for our students. Our goal is to offer opportunities that will maximize quality of life, encourage community involvement and support families as they rear and care for children and young adults with serious developmental issues.

---

## Additional Information

- School security has been enhanced by the installation of scanned locks and additional emergency call buttons.
- Washington Center continues to support higher education by serving as a field placement and training facility.
- Assistive technology and augmentative communication devices are integrated into all instruction.
- This year Washington Center students have been supported by Law Enforcement personnel who have come to teach about positive interactions with police.
