Enoree offers single semester introduction courses in almost every program at the center. This change in scheduling, along with the staff's recruitment efforts, has resulted in a dramatic increase in enrollment over the past six years. Enoree maintains a great degree of flexibility in classes and curriculum in order to meet the needs of our students, their home base schools, and the community around us. Our goal is to prepare our students for the next step, whether it is entering the work force or continuing their education in a post-secondary environment.
