Our school has received the state report card grading us on student achievement on the state PASS test.

We have been reviewing data and identifying programs that are working as well as additional strategies needed to enable all students to achieve academic success. During the 2012-2013 school year, Common Core Standards, MAP goal setting, school improvement goals in math, science, and reading, authentic student engagement, PBIS, professional learning communities, science note booking/ science labs and Response To Intervention (RTI) were implemented to address some of these concerns. As a result of our scores, we were awarded the **Palemto Silver Award** for improvement and the **Palmetto Silver Award** for closing the achievement gap by the State Department of Education.

This report includes the results of our review from the 2012-2013 school year. We will continue to study student achievement and use all available resources to meet the needs of our students.
