## Community Involvement

- The HES Junior Beta Club and the Boys Club prepared baskets for senior citizens at the Hampton County Council on Aging. The baskets included hand sanitizer, masks, and hand lotion.
- The Junior Beta Club sponsored a fundraiser called "Pennies for Patients" to raise money for the Leukemia and Lymphoma Society.
- The school sponsored a "Soup"er Bowl Canned Food Drive during the week of the Super Bowl. Over 600 food items were collected and distributed to local churches for their food pantries.
- The Junior Beta Club recognized local law enforcement during Law Enforcement Week by providing "Goodie Bags" filled with treats.
- HES teamed up with the Clemson University Extension School Garden Program to provide students with hands-on gardening experiences. Students prepped, planted, and harvested cabbage and broccoli in their winter garden and collard greens, lettuce, and snow peas in their spring garden.
- HES Wellness Initiative-We are embracing health and wellness and socio-emotional aspects in the lives of staff and students. We begin each day with a wellness tip and breathing exercises. We also have an afterschool walk group.
- HES students will raise money to support the Hampton County Animal Shelter. This fundraiser will be held in May. The last time this fundraiser was held, our students raised \$1000.

## Accelerating Student Learning

- The Hornet Academy meets three days per week afterschool to provide intervention to students in reading and math. Over sixty (60) students are being served.
- The HES Boys Club meets three days per week afterschool to provide intervention in reading and math. A physical fitness component is also incorporated in their schedule.
- The STEAM Academy meets weekly (virtually and in person). The students have built balloon racecars, designed structures for an "Egg Drop" and participated in a virtual field trip to Mars.
- In-School Daily Intervention is being provided to students. Students rotate in cycles based on their academic progress.

## Professional Development

- HES teachers and students have been challenged with virtual learning. Teachers and students have been trained in the use of Microsoft TEAMS and DreamBox.
- HES 4th grade teachers received Fountas and Pinnell classroom curriculums. This comprehensive ELA Curriculum will be implemented fully starting next school year.
- *Through the **Read to Succeed Act (R2S)*** HES has a reading coach to support all teachers across all content areas. The goal is to help all teachers increase the literacy levels of all students through effective instructional and intervention strategies.
- HES has embedded weekly professional development (PLC) led by our instructional and reading coaches to make intentional decisions for continuous school improvement and professional growth.
