STAFF EMPOWERMENT

North District Middle School has adopted, “Together, building brighter futures !!!” as our school-wide theme. Our philosophy is, if we are going to prepare the entire student for their next level. This student focus is designed so each student will have a chance to meet the requirements of the Profile of the SC Graduate, we must be work together and be focus on the total outcome. We must be focused when planning lessons, focused when teaching lessons, focused in our assessment, and most of all focused in our

- High Progress Literacy-Processes to engage all students in reading, writing, and researching challenging, grade-appropriate text.
- STEMS Training – All science and math teachers are being trained to understand what rigorous instruction and effective teaching practices are. Teachers’ knowledge of content and Common Core Standards is being increased and they are learning about the interconnectedness of STEM disciplines so they can help students master these content areas.
- Professional Development— Teacher professional development is any type of continuing education effort for educators. It's one way teachers can improve their skills and, in turn, boost student outcomes. Learning can take place in formal or informal settings. Formal settings include conferences, courses, seminars, retreats and workshops.
- All ELA and Math Teachers attended professional development session pertaining to using IReady
