Dear Parents and Community Members,

The past school year has proven to be another great year for J. S. Wright Middle School and Abbeville County School District. While our financial resources are not equal to that of many of our neighboring districts, Wright Middle School's and Abbeville County School District's test scores continue to be at the top of our consortium which consists of 13 districts stretching from Lexington County to Anderson County. Wright Middle School's overall scores improved on average five points per core area from the past year. One reason for this continued improvement is the support offered by the district administration. Also, this continued improvement is due to tremendous effort from our teachers, staff and students who all take ownership of our school. Most importantly, our parents and community continue to give great support to J. S. Wright Middle School.

The presence of the above components is necessary for the success of any school. J. S. Wright Middle School is fortunate to be the recipient of all of these components. The intangible item is the support from our community and most important our parents. Without your support, your child's education will suffer. Please continue to invest in your child's education. It will have much to do with their legacy and that of our community.

I urge all of you to be involved in Abbeville County School District and our all of our schools. Your energy, concern, and input to our school board members are crucial. Please be a part of the great democratic system that we are privy to in our country. Your exercise of the great privilege of voting is essential to our success. The future promises to be a challenge as we face changes on the national, state and local levels. Thank you for what you have done in the past. I urge you to continue your involvement in our school and our district.

Sincerely,

F. R. Williams, Jr.
Principal
