The mission of Green Sea Floyds Elementary School

is to provide a rigorous, results-driven curriculum

that ensures the academic, social, emotional, and

physical development of all students, preparing

them to reach their full potential as responsible

and productive members of society.

Our school is helping all students develop the world class skills and life career characteristics outlined in the Profile of the South Carolina Graduate by providing highly qualified teachers who have received extensive staff development in the areas of reading, mathematics, science, social studies and technology. The mission of Green Sea Floyds Elementary School is to provide a rigorous, results-driven curriculum that ensures the academic, social, emotional, and physical development of all students, preparing them to reach their full potential as responsible and productive members of society.

The vision of Green Sea Floyds Elementary is to Inspire Trojan 'PRIDE' (P-Positive words and actions, R-Respectful Relationships, I-Integrity and honor, D-Discovering individual talents, E-Engaged in Rigorous Learning experiences).

Foremost, we believe that our purpose is to develop the potential of each student and ensure that all students become productive members of their community, and are able to adapt to a diverse, ever-changing world. We also believe that we have the obligation to challenge every student to meet higher academic standards than his/her current level. In order to accomplish this, we believe that our students deserve exceptional and passionate staff, who share our core values.

Our School Improvement Council, PTA, and various community organizations support us. Our School Improvement Council meets regularly to discuss the academic progress of our school and to discuss parental involvement activities and community support for school events. We have 100% parental participation in parent-teacher conferences. Parent Workshops are held throughout the school year focusing on the following areas: Early Reading Strategies, Gifted and Talented, Math, technology, and various parenting topics such as Utilizing Parent Portal, Assessment, Middle School and Beyond, Bullying, and internet safety. These workshops were held at varied times of the day.

Our school is helping all students develop the world class skills and life and career characteristics of the Profile of the Graduate by providing opportunities that challenge students in the areas of academic, personal, physical, and social development. Driven by SC State Standards, our staff provides rigorous curriculum that includes opportunities for acceleration, remediation, and enrichment through small group instruction, intervention, and the gifted/talented program. Students in all grades have access to digital devices throughout the school day. As our teachers and staff grow and work together, they continue to develop their skills by participating in professional development activities and focusing on instructional strategies to improve student achievement in all subjects.

Green Sea Floyds Elementary is very proud of our accomplishments and are very excited about sharing these. Our students are to be commended for doing their personal best each day. Students are recognized for making good choices and using appropriate life skills. The partnership between home, school, and community has been vital to our success this year. Our community and business partners have provided wonderful support to our school. Our school participated in recycling and Pink Out Day. These events were a huge success and were achieved by teamwork. We appreciate our students, staff, parents, grandparents, churches, GSFH and community for all their hard work. We have been blessed to have the support of a caring community as evidenced by the success of our Backpack Buddies, Student Celebrations, Angel Tree, and Backpack Blessing event. The Green Sea Floyds Elementary vision exemplifies the focus and commitment of our community to provide a quality education so that all students achieve academic excellence.
