Our School Mission

The mission of Homewood Elementary School, in partnership with its children, families and educational stakeholders, is to ensure our children receive personalized learning experiences by providing quality instruction to prepare them to meet the challenges in life in a safe, orderly and nurturing learning environment.

Dear Parents,

The School Improvement Council (SIC) serves as an advisory committee to the school principal and faculty. Unlike PTO and other voluntary organizations, SICs are mandated by law to exist in every public school in South Carolina. SICs play a key role in the education of children, bringing together parents, educators and community stakeholders to consider avenues and methods of improvement in local schools. SICs work collaboratively with the school to develop the five-year Strategic Plan.

Homewood Elementary SIC is pleased to present to you our 2018-2019 School Summary Report. This report highlights our grades 3 - 5 students' progress on PASS and SC READY as well as the academic achievement of students in grades K -2. We have gathered MAP tests and other data, studied results, consulted with teachers, parents, and students, and monitored progress throughout the year in order to determine areas in need of improvement. Parental involvement is strongly encouraged and viewed as a significant factor in the success of our students. We welcome you to join us and become active in your child's education and school!

Sincerely,
Penny Foye - Principal
