

Student Achievement

During the 2021-2022 school year, our students were able to attend school full time. The Covid 19 virus continued to impact our students as many students experienced one or more quarantines. . To fill learning gaps caused by the previous 2 years of Covid distance and hybrid learning, we have worked to provide intensive supplemental reading intervention and afterschool programs. Our priority will be to continue to accelerate learning to overcome achievement gaps created by this virus, especially in reading.
