About SIC

Mandated by law, the School Improvement Council (SIC) serves as an advisory group to North Central High School. The SIC plays a crucial role in school improvement by bringing together parents, educators, and community stakeholders who work collectively to establish, monitor and evaluate specific long-range goals for student achievement.

Other duties include producing the annual report to parents that outlines the progress of these goals and other school highlights and accomplishments.

NCHS SCHOOL GOALS

1. High Student Achievement

North Central High will use data to drive instruction and promote academic growth and achievement. We will provide students with a variety of resources and tools to improve student achievement.

2. Parent and Community Involvement

North Central High will provide increased opportunities for parent and community involvement in our school.

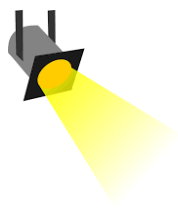

3. Faculty Professional Development

North Central High faculty and staff will participate in increased professional development opportunities. Increased professional development will allow us to grow professionally and provide better instruction to our students.

How are we achieving our goals?

Our School Renewal Plan Goals are monitored throughout the year by our SIC, administration, and faculty. This allows us to evaluate our progress toward these goals and to determine the strategies needed to meet these goals.
