

West Lee Elementary School

55 West Lee School Road
Rembert, SC 29128

Dr. Veronica K. Bradley, Principal

West Lee Elementary develops world-class skills of the Profile of the South Carolina Graduate by providing the highest quality instruction and promoting social and academic programs via guidance classes and a master schedule that assist all students in excelling academically. Our school is helping all students develop the required world class skills by providing personalized learning opportunities through small group instruction that will prepare and cultivate our students to become productive citizens in a global society.

West Lee students are supported with a positive and student-centered learning environment; in addition, our students continue to develop their skills in literacy, math, and technology. Each student is assigned a personal Chromebook to reinforce skills in reading and math through various learning platforms to enhance learning outcomes. West Lee Elementary implements a Balanced Literacy Instruction that includes teacher modeling, guided and collaborative practices, and independent reading. Differentiated instruction is also provided in a variety of formats to ensure that higher-level skills are attainable in all content areas.

West Lee Elementary teachers are continuous and lifelong learners. Teachers grow professionally through peer facilitated, professional development, and professional learning communities. Professional development is offered at a variety of levels for teachers in the areas of literacy and math. Balanced literacy continues to be the focal point of our professional development with emphasis on reading comprehension and fluency. Math professional development addresses state standards, math fluency, and math facts.

Students are offered leadership opportunities through student council and various school-wide programs. Proper nutrition and physical activity at school and at home are encouraged and communicated to help students remain healthy, active, and alert.

Parents and community members are critical to the academic success of students. Collaboration with parents and community members is viewed as an integral component of the teaching and learning process, as parents participate in School Improvement Council, Monthly Parent Meetings, and Monthly Parent Engagement Activities. Our community partners continue to support us as we consistently work towards preparing our students for college and careers. Local churches have also joined us to provide supplies and support to our students as well.

West Lee Elementary School continues to encourage family and community involvement in our school. We promote our belief by hosting a variety of family and student-centered events throughout the school year and keeping our students, teachers, and community partners continuously informed through monthly newsletters. Our focus is encouraging, empowering, and engaging our entire school community in supporting our students and putting them on the path to higher achievements and continued success throughout the 21st Century.
