Core Beliefs

We believe:

- Every student can learn using his or her valuable and unique talents and skills.
 - Learning takes place when the physical, emotional, social and intellectual well-being of all students is assured at every level and during every transition.
 - High expectations of the school community positively impact student success.
 - Early childhood learning experiences form the foundation of future school success.
 - Students learn best when they are engaged and provided with opportunities for problem solving and active participation.
 - All students are entitled to learning experiences so that they can become competent and confident in the skills and knowledge needed to become successful and productive citizens.
 - Investment, involvement and connection of all members of the school community are essential to a student’s success.
 - Frequent informal and formal assessment aligned to clearly defined learning objectives will provide improved student achievement.
 - The collection, analysis and use of data from a variety of sources are critical to making decisions.
 - Students should be prepared to compete and contribute in a changing global and multilingual society.
