## Annual School Improvement Council Report to the Parents 2014-2015

Email address: [jhamby@lexington1.net](mailto:jhamby@lexington1.net) Web Address: <http://les.lexington1.net:8012/>

**Mission Statement:** The mission of Lexington Elementary School—where caring people, academics, the arts and physical education connect — is to enable our students to be thinking, productive, responsible citizens in the global, competitive 21st Century--while serving as the center for community learning.

**Purpose of the Report:** School Improvement Councils (SICs) are to publish and distribute a Report to the Parents each year highlighting the progress the school is making in achieving the goals and objectives of the its five-year School Improvement Plan and the SIC's annual goals. This Report is unique to each school and is developed by the SIC with input of the principal to share the challenges and successes of the school, students, parents, and teachers for the current school year.

Lexington Elementary School was recognized by the South Carolina Department of Education as a Palmetto Gold Award winner for General Performance for 2014. Also, in 2014 the Elementary and Secondary Education Act, the federal accountability system, LES received a "B" rating where our performance exceeds the state's expectations. In an effort to continue to provide excellent classroom instruction, we examined this data, as well as data provided by classroom teachers, Universal Screening, district common assessments, Palmetto Assessment of State Standards (PASS) and from Measures of Academic Progress (MAP) testing.

Our staff participated in a variety of staff development. The LexLearns and LexLeads committees concluded work on re-writing our school mission statement. The LexLives Committee worked with our school Health Team to develop opportunities for our students and staff to maintain good health habits. All certified staff are qualified instructors in the "The Leader in Me" Program by Covey. The LES International Baccalaureate committee continued our investigation of the PYP IB program. We five staff members complete on-line training in Category 1 PYP IB training in February. The LexLeads Committee continued their study of the International Baccalaureate Primary Years Program as part of the strategic plan for LES. We also continued rigorous professional development with our "Whatever it Takes" Team (WIT) as we continued our work through the state standards for ELA, math, science and social studies. The WIT team met regularly with teachers and discussed and plan collaboratively, developed common assessments, and analyzed the results of those common assessments to compare student progress and plan instruction. Differentiating instruction to meet the individual learning needs for all children continues to provide a challenge. To provide small group differentiated instruction, teachers use technology such as iPads and SMART Board™ interactive whiteboards that allow students to actively participate in lessons. Small group instruction continues to be effective using the Daily 5 and Café models.

We continued with our 5 to 1 personal computing in grades 4 and 5. Each 4<sup>th</sup> and 5<sup>th</sup> grade classroom has six iPads and third grade received a 20-iPad mobile cart.

We purchased additional iPads using local funds to support our special needs students and resource programs. Our student-led "LES Live" morning TV program continues to be a huge success.

In a continuing effort to promote school wide positive student behavior, we continued our use of Positive Behavioral Interventions and Supports (PBIS.) We moved into year three of using Steven Covey's 7 Habits of Happy Kids. The 7-habits are displayed throughout the school to promote behavior expectations across our campus. Through our daily announcements, children are reminded to show their Wildcat Pride in all they say and do. To support our 7-habits initiative with year two of our incentive program "Cat Cash" and "Cat Store." Students earn "Cat Cash" in a variety of positive ways and are able to "spend" their cash at the "Cat Store" on the first Friday of each month. Our PTA, parent volunteers and business partners support the "Cat Store." Also, each homeroom and grade level teacher team and department developed a "mission statement" as we incorporate the "7-habits" from Stephen Covey's "The Leader in Me" and "7 Habits of Happy Kids"

In Oct. 2014 85% of LES students in grades 1-5 was reading at or above their grade level. PASS 2014 data showed that in ELA PASS test that 85% of students in grades 3-5 scored Met and/or Exemplary and 85% in Math PASS testing. Also, in math we continue with the on-line First in Math program and continue to see our math score improve. Our students have solved over 3 million extra math problems this year. We look forward to continued success as we address the needs of our students. We expect each child to be successful.

LES students and staff participated in a variety of community service projects in 2014-2015. Fifth grade students volunteered at the District 7 Special Olympics in April. Our students and staff donated canned foods to LICCS in Dec. In Nov. we partnered again with Happy Wheels to provide new toys for children in the hospital. Throughout the school year student and staff have actively raised money for Relay for Life. LES was recognized in Oct. as one of the top ten schools in Lexington 1 in donations. Also, our 4<sup>th</sup> and 5<sup>th</sup> grade Cats Choir performed at the local nursing home and other local venues.

Teachers at LES received recognition for their outstanding work. Technology Integration Specialist, Suzanne Brooks was selected as the LES Teacher of the Year, and was a Top Five Finalist for Lexington 1. Special education teacher April Hughey received an \$800 Project Unify grant to promote the acceptance and recognition of special education students in the school and community. Several teachers received a \$250 Michelin Golden Apple Grant. And finally, we are starting to upgrade our school furniture. Each classroom teacher received a new teacher desk and chair and the Learning Commons is receiving new module functioning furniture.
