2017-2018 SIC Report to Parents

Lexington Middle School continues to inspire, prepare and empower our students to make their world a better place.

By focusing this year on interdisciplinary connections, disciplinary literacy and transferrable skills, our teachers have intentionally orchestrated units of study that allow students to connect their learning directly to their world and their futures. Our students experience a rich curriculum guided by the South Carolina standards and the International Baccalaureate Middle Years Objectives and Assessment Criteria and delivered through transformative practices in the classroom. Our students qualified for prestigious programs such as Duke Tip, SC Junior Scholar, and the National Beta Club. These measures along with nationally normed data from standardized tests tell us that our students continue to thrive academically at our school.

At Lexington Middle, we identify and measure student development in specific skills and tools for learning known as Approaches to Learning. Our students apply their skills in school and through their amazing accomplishments in extracurricular activities. Our athletic teams played hard and embraced team spirit with our volleyball team earning the title of PAC Champions for seven years in a row and our cheerleading team taking the Debbie Rogers Championship for three years in a row. Our arts also shined with students recognized for their talents through participation in District Honor and Region Orchestra, SC Youth Philharmonic, District Honor Choir, District Honor Band, District Honor Art, Musical Theatre productions, and our Lexington Middle School Dance Company.

At Lexington Middle School, our students commit to service in our community. Our students carried out and participated in the Pulsera Project, Thankful Tom, Relay for Life and many more community projects that positively impact our community, both locally and globally.

Our students also continue to seek opportunities that connect them to their world. For the eighteenth consecutive year, our students participated in an international exchange with students from Claremont, France, and groups of students traveled to Washington, DC, Italy and Costa Rica.

Lexington Middle School is dedicated to a culture of excellence for all of our students. We are proud that our students are trailblazers who are inspired, prepared, and empowered to change their world and bound for transforming South Carolina.

Principal Gloria Nester and SIC Chairs Dr. Ebony Bowers and Mandy Bowden
