Purpose of the Report

The purpose of this report is to highlight the progress RBE is making in achieving the goals and objectives of the school's school-based work plan which aligns with the Lexington District One strategic plan. This report has been developed to share the challenges and successes of the school, students, parents, and teachers and is in compliance with the Education Finance Act (EFA) of 1977, the Education Improvement Act (EIA) of 1984, and the Elementary and Secondary Academic Act (ACT 135) of 1993.

2022-2023 Goals

Area for Growth #1:

If we support all educators with implementation of the workshop model through the lens of Personalized Competency Based Learning, then students will grow in the area of math.

Area for Growth #2:

If we increase positive communication with families and implement the components of personalized competency-based learning (PCBL) that promote student engagement and ownership of learning, then transparency of learning and relationships with all stakeholders will improve, students will feel they belong, and negative behaviors will decrease.
