## SIC Annual Goals

1 – The average percentage of our students in grade six through eight scoring met or above on State Assessments in the four content areas will be 83.45%.

2 – Provide alternative instructional methods and real-life applications of knowledge and skills to improve proficiencies of students with varied learning styles

3 – To provide purposeful, planned and progressive educational opportunities and intervention strategies that meet the social, emotional, intellectual, and physical needs of adolescent students.

The purpose of the SIC annual goals is to steadily progress the school forward in all areas consistent with the school's mission. We believe that by targeting the above areas that we will not only prepare our students for the high school, but that we will have helped to shape a generation of students for success in our community.
