

WELCOME TO AIRPORT

HOME OF THE FIGHTING EAGLES

Mission Statement

Airport High School is a *diverse learning environment* dedicated to providing innovative educational opportunities that **empower** ALL learners to become successful within and beyond their communities.

Workplace Culture

At Airport High School, we pride ourselves in fostering a workplace that is inclusive of ALL students, faculty, and staff members. We are continuously working in professional learning communities to create successful educational experiences that will prepare our students for college, career, and/or the military. Professional Learning Communities are where our teachers meet with their content area partners to collaborate about student growth, obstacles, and share ideas. Our MTSS teams make sure we are supportive of the WHOLE student by monitoring students in the areas of academics, attendance, and social-emotional needs. Additionally, students have many opportunities to engage in a plethora of activities and be a part of our award winning programs. We come together monthly as a school team to celebrate our accomplishments and map out our future adventures.

Welcome to Airport, and Go Eagles!
