What is School Improvement Council (SIC)?

An SIC is a broad-based body intended to advise the principal and school, and is focused on helping to achieve school improvement. State law requires that every K-12 public school in South Carolina convene an SIC. The law states that it is the responsibility of the local school board to ensure SICs are constituted within each district. This includes career, vocational, and technical schools. Public charter schools may convene an SIC but it is not required by law.
