Assistant Principal**

STATEMENT OF BELIEFS

- All staff must be highly qualified, caring and dedicated members of a professional learning community.
- The successful development of students is a collaborative effort of parents, schools, businesses, and the community.
- All members of the school community must be invested in the school-wide culture and each and every student's success.
- Goals must be explicit and expressed publicly to all stakeholders.
- Literacy is the foundation of success in all content areas.
- Research-based instructional strategies must be implemented, monitored, and refined.
- Differentiated instruction is fundamental to meet the needs of ALL students.
- Formative and summative assessments are vehicles to advance student academic achievement, verify attained learning, reinforce effort, and provide recognition.
- The learning environment must inspire creativity, innovation, and critical thinking.
- Students should be empowered to take ownership of their choices.
- The culture and diversity of every individual must be honored.
- The learning environment must be based on a structured data analysis process where individual student learning opportunities are maximized.
- A guaranteed and viable curriculum is the core of the educational process.

MISSION STATEMENT

The mission of Pineview Elementary School is to develop confident, lifelong learners by providing innovative educational experiences, higher order thinking, and character education in all curricular areas.

VISION STATEMENT

Pineview Elementary School will be a regionally recognized site for best practices and achievement.
