About our School

We have served West Columbia since 1955. Saluda River Academy for the Arts was established as a fully arts integrated and partial magnet school in 1999. We are a public school that offers educational excellence through innovative programs in the arts, academics, technology and physical development.

The arts focus at SRAA provides extensive opportunities for all students to learn through creative, engaging, and challenging instructional approaches, and to showcase their own creativity through the arts. We are celebrating our 24th year as an arts school!

There are many opportunities for our school community, students, parents, faculty, and friends to work in unison as we strive towards

our mission. You are invited to partner with us in our quest! High expectations, coupled with hard work, enable us to work together to ensure our children achieve at great heights.

During the current school year, our faculty has participated in district-wide curriculum planning and development, Professional Learning Communities Training, LETRS Training, and Crisis Intervention Institute Training.
