

Our Vision

We envision...

1. A school where students are engaged in interactive learning and integrating digital media.
2. A school focused on rigorous State Standards to help ensure Seven Oaks students are prepared for college and career.
3. A safe and nurturing environment that fosters a joy for learning.
4. A sense of community in the school with a mutually respectful and cooperative environment focused on positive behavior.
5. A place where the entire community is actively involved and dedicated to the education and wellbeing of the whole child.

Promoting Teaching and Learning Highlights

Seven Oaks Elementary School MEDIA Magnet is helping all students develop the world class skills and life and career characteristics of the Profile of the South Carolina Graduate by providing a variety of instructional practices informed by data. Grade level teachers meet as a Data Team to write common formative assessments, discuss data results, and determine specific instructional strategies to improve student achievement. Professional development and classroom support is provided by a full time Literacy Coach who works collaboratively with teachers to ensure student learning and growth in reading and writing. Teachers triangulate various data points to identify students needing specific intervention in reading and math. Identifying and using research based instructional strategies, interventionists and classroom teachers are able to meet the individual needs of students.

Seven Oaks Elementary School MEDIA Magnet is immersed in media and technology. Every student has an iPad or Chrome book that is used to enhance the learning opportunities and engage students in communicating, collaborating, and creating. A high tech production studio and radio station allows students to be creative and innovative in their learning. Students develop, edit, and produce videos and iMovies to showcase standards-based learning. The Film Festival (Golden Globes of Education) is held annually where students present media projects and earn recognition for their achievements. Students at our school are using the world class skills on a daily basis to problem solve and think critically.

The mission at Seven Oaks Elementary MEDIA Magnet School is to foster learning in an interactive and digital environment where an engaging academic curriculum prepares students for success in a digital society. By focusing on our mission, we are developing students who emulate the Profile of the South Carolina graduate.
