Dear Parents,
Pomaria-Garmany Elementary School is helping all students develop the World Class Skills of the Profile of the South Carolina Graduate by providing a safe, caring, and an academically challenging learning environment. Our school vision strives for a school culture that students and staff “learn today and lead tomorrow.” We demonstrate this vision by establishing an environment where our staff, students, parents, and community members work together to cultivate an atmosphere that promotes leadership, world class skills, and life and career characteristics to be college and/or career ready.

COVID-19 had a major impact on our school this year. We had planned activities, events, and programs that we were forced to cancel due to concerns that we could not social distance. Our staff, parents, and SIC have communicated regularly to ensure we were making the best decisions possible for our students. We miss our parents and are looking forward to the days that we can resume learning without the Pandemic restrictions.

This summary report is to inform parents and community members of school performance for last school year and plans of progress for this year. Due to the 2019 school closures related to the Coronavirus disease, we do not have updated school performance data based on the SCREADY assessment. You can, however, find the link to our school report card here:
