

We believe that...

- All students can learn.
- Student learning is the chief priority of the school.
- Children learn best when motivated and challenged.
- Education is a lifelong process requiring continuous improvement and revision.
- Education will provide students the opportunity to access information and to be successful problem -solvers.
- Individuals will be provided an emotionally and physically safe learning environment.
- Individuals will be given opportunities to experience changing technologies.
- Students will have access to services and resources necessary for them to reach their full potential and develop their unique talents.
- Curriculum and instructional practices will vary to accommodate a variety of learning styles.
- Individuals will be given opportunities to be actively involved in the learning process.
- Students are the center of an education that is relevant to everyday life experiences.
- All individuals will be treated with dignity and respect.
- Individuals need to be responsible for their own actions.
- Students need to develop an awareness of cultural, social, and emotional differences.
- Parent/guardian involvement does contribute to the success of students.

Evaluation of Goals 2016 - 2017

- We continued to analyze standardized test data in order to improve instruction.
- Continued to operate a computer lab utilizing problem-solving and critical thinking software.
- Continued to incorporate balanced literacy in ELA instruction.
- Implemented a new system for student recognitions for 100 Book Challenge.
- Continued to provide professional development in technology, teaching strategies, and balanced literacy.
- Continued to communicate with parents and the community through various methods (i.e., newsletters, email, progress reports, conferences, phone calls, news articles, web pages, PowerPoint presentations, Parent Connect, etc.)
- Continued to use the STAR Reading Program.
- Implemented the Envision Math program in grades K-5.
- Continued to use MAP testing in grades K-5.
- Continued to use small group remediation for reading and math.
