

My first year as principal of Holly Hill Elementary School of the Arts and Technology has been phenomenal. We have established and implemented our new Arts and Technology initiative as well as begun our Response to Intervention and Differentiated Instructional Groups.

In addition, we sent numerous teachers to conferences and workshops and purchased new equipment to enhance teaching and learning; as a result we have seen a tremendous increase in student achievement as indicated by the Measures of Academic Progress and Dominie Scores.

Consequently, our students have experienced much success as well. Holly Hill A and T students were featured in many publications and were highlighted in many articles and editorials which include The Holly Hill Observer, The Times and Democrat, and other local news media.

Furthermore, we have had several students selected to the National Beta Club, the HHE Step Team, winners of the District Science Fair as well as a Regional Science Fair Winner.

Finally, I really have enjoyed my time as principal of HHE and it has been my pleasure to serve at such a great institution. I am extremely excited about our future and the fact that we are fulfilling our mission of providing a quality education to all of our students who enter our school. Go Bulldogs!!!!
