**A school where,
“Failure Is Not an Option!”**

Principal's Message

At Rivelon Elementary, we feel that it is our job to create an environment where our students and parents feel that we care about them as individuals. First of all, we strive to develop students as good people with values and morals. We also stress to our students that it is important to respect yourself first, if you want others to respect you. We teach our students this lesson by allowing them to see positive interaction among the adults in our school.

Secondly, we strive to teach our students that if they are to compete in society, they must be well prepared academically. They must do their best with each assignment given. We also stress to our parents and students that reading in and out of school is extremely important in determining the students' success in life.
