

# OUR BELIEFS

All teachers, administrators, staff, parents, students, and community members have the responsibility for education.

All students have the capacity to learn.

A safe, clean, comfortable, and attractive environment promotes student learning.

A variety of teaching and learning strategies as well as clear goals and high expectations increase student performance.

Self-motivation, self-discipline, and cultural sensitivity are keys to learning.

# PRINCIPAL'S MESSAGE

At North Middle-High School, our vision is to work with the community to build an exceptional school system that is compassionate, cooperative, coherent, comprehensive, and character-driven. I take pride in this statement because our faculty and staff chose it together. Working with the community is important to all of us, because educating students takes a community.

Students need teachers that have well-planned lessons that engage and educate them. Parents need a school that will educate their students and keep them safe. The school needs parental support and students that thirst for knowledge. All of these factors have to take place in order for an exceptional school system to be in place. This is what we strive for at North Middle-High School.

This year our building had a "technology make-over," thanks to our district office. Smartboards, new computers and LCD projectors were placed in every classroom to assist our teachers in their daily instruction. Our science lab in the middle school received new counter tops to keep our students safe; and we tried to bring more energy into our building by placing benches and plants in our commons area, and by having our art students paint murals in our halls.

Faculty, staff, and students working together to make North Middle-High School a better place.

Charles Gregory, Principal
