Eddie Perry, SIC Chair

Our Mission

We educate to Energize, to Engage, to Elevate, to Empower!

Our Vision

The vision for North Middle High School is for the culture to be a collaborative community of learners who are engaging students through 21st Century Skills through the Profile of the South Carolina Graduate to become successful world-class citizens as we prepare them for college and career readiness.

Keeping the Momentum at NMH!

It takes momentum in these unprecedented times to make us operate and work. Momentum also displays a sense of urgency for our work.

The formula for momentum:

From the web

$p = m \cdot v$. Momentum is directly proportional to the object's mass (m) and velocity (v).

Therefore, the greater an object's mass or the greater its velocity, the greater its momentum.

Velocity:

The velocity of an object is the rate of change of its position with respect to a frame of reference, and is a function of time. Velocity is equivalent to a specification of an object's speed and direction of motion (e.g. 60 km/h to the north).

We are moving, but let's keep moving in the right direction and with the right frame of reference.

FLY HIGH EAGLES!
