

## **Dear Easley High School Families,**

At Easley High School, we are committed to helping all students develop the World Class Skills of the Profile of the South Carolina Graduate by encouraging each student to "Find Your E." This guiding motto reflects our mission for every Green Wave student to define personal success and prepare for one of three post-graduation pathways: enrollment in higher education, employment in a skilled career, or enlistment in military service.

The 2024–2025 school year has been one of continued growth, achievement, and momentum, made possible through the hard work of our students, the dedication of our staff, and the unwavering support of our families and community. Our academic performance has continued on an upward trend, with noticeable gains across key indicators. We are especially proud to anticipate another increase in our graduation rate, a reflection of the commitment our students have shown and the consistent support from our teachers. At Easley High School, we continue to prioritize academic excellence, with a sharp focus on data-driven instruction, equity, and personalized support to ensure that every student reaches their full potential.

This year has also been marked by many extracurricular accomplishments that showcase the talents and character of our student body. Not only were we able to establish time within our school day for remediation, but it also allowed for further enrichment through the development of over 15 clubs in which our students can be involved. Our Art, Band, Chorus, and Orchestra students were well-represented throughout the state in numerous competitions. In athletics, several teams reached the playoffs, and our track team had several individual state champions. The NJROTC program had another remarkable year, competing in several competitions across South Carolina, and continues to demonstrate the strength of leadership and commitment within our cadet ranks. Additionally, student leaders from Youth in Government and Student Council represented our school with pride at state-level conferences, contributing meaningfully to civic discourse and modeling servant leadership.

The success of this year is due in large part to the strong relationships that exist within our school community. Easley High School thrives because of the collective efforts of our students, staff, families, and community partners. This collaboration creates a safe, inclusive, and inspiring environment where students are supported academically, socially, and emotionally. The trust and involvement of our families play a critical role in everything we do, and we are deeply grateful for your partnership.

As we reflect on this school year and look to the future, we remain focused on helping every student at Easley High School "Find Your E." Our school community is committed to continuous improvement and to ensuring that every graduate is fully prepared for the opportunities and challenges that lie ahead. Thank you for your continued support of Easley High School and for being an essential part of our journey toward excellence.

**Sincerely,**

Josh Oxendine

Principal, Easley High School
